

Eggleston Farkas Architects was formed in 1999 by John Eggleston and Allan Farkas as a small collaborative practice. Reflecting the quality of their numerous projects, John and Allan have been honored as two of Seattle Home & Lifestyles' "Design 100", among Northwest Home+Garden's "Top Architects", and as recipients of Seattle Design Center's Design Achievement Award for Architecture. Their personal attention to concept and detail, aspiration and budget, imagination and reality, allows Eggleston Farkas Architects to create internationally published work that is "sleek, aesthetic, and highly livable – contemporary designs that remain sensitive to the Northwest."
